Toner Cartridge Evaluation Results

SUMMARY RESULTS

The page yield of the A-Flux Marketing Pte Ltd sample cartridge of 11,643 was 116% of the OEM stated yield of 10,000 pages. The sample cartridge exhibited banding and light text print quality. Also, it consistently exhibited a maximum density performance above 1.2 throughout the life of the cartridge. No toner leakage was observed in the cartridge packing material or during operation of the cartridge in the printer. The A-Flux Marketing Pte Ltd sample cartridge produced no detrimental effects on the test printer.

Note: This is an extraction summary from a detailed report.
